"A celebration of the many forms of art."

**Join us Wednesday May 26th
for an evening of Music & Art
as we showcase pieces by
"Sunshine" Joe Mallard and CJ
Fletcher, both are local artists
who are world renowned in their
own right. The evening will also
feature musical performances
from local musicians as well as
special CHOICE alumni guests.**

About Us

Founded in 1987, C.H.O.I.C.E. Inc. is a comprehensive, nonprofit, community-based prevention and early intervention program designed to steer high risk/at risk youth and adolescents into making more positive life choices.

The C.H.O.I.C.E. Program is directed toward young people, 3rd through 12th grade, from mixed social-economic and ethnic backgrounds not yet chemically dependent. All services are provided during school hours. The overall goal of the program is to assist young people in joining together to enhance their ability to make positive choices, increase their sense of self-regard, decrease the incidence of ATOD (alcohol, tobacco and other drugs) use and other unhealthy risk behaviors. This is accomplished through a 28-week two-tiered program comprised of prevention education and bolstering resiliency factors within the young person. Services offered by C.H.O.I.C.E. Inc. are provided to young people who reside in Metro Louisville /Jefferson County (KY) communities and who are not yet chemically dependent.
